

Reference: largest-domain solution for the same point.

The zero-error reference point is omitted on logarithmic axes.

● $M = 0.5, \alpha = 0.5, \eta = 0.577$
■ $M = 0.49, \alpha = 0.09, \eta = 0.103$
▲ $M = 0.49, \alpha = 0.86, \eta = 0.987$
